TO EACH STUDENT, MASSACHUSETTS MARITIME ACADEMY
SUGGESTS A VARIETY OF IMPRESSIONS.

IN MEMORY OF A PRESIDENT

No other person deserves the credit for the steady and continuing success of the Massachusetts Maritime Academy as does the late Rear Admiral Harrington.

Assuming the duties of the President on 1 January 1972, Rear Admiral Harrington succeeded in the task of transforming the tide of an old and dormant school into a professionally minded institution striving towards the goal of training competent U.S. Merchant Marine Officers

Mr. Leonard Hathon

Mr. Desmond Connolly

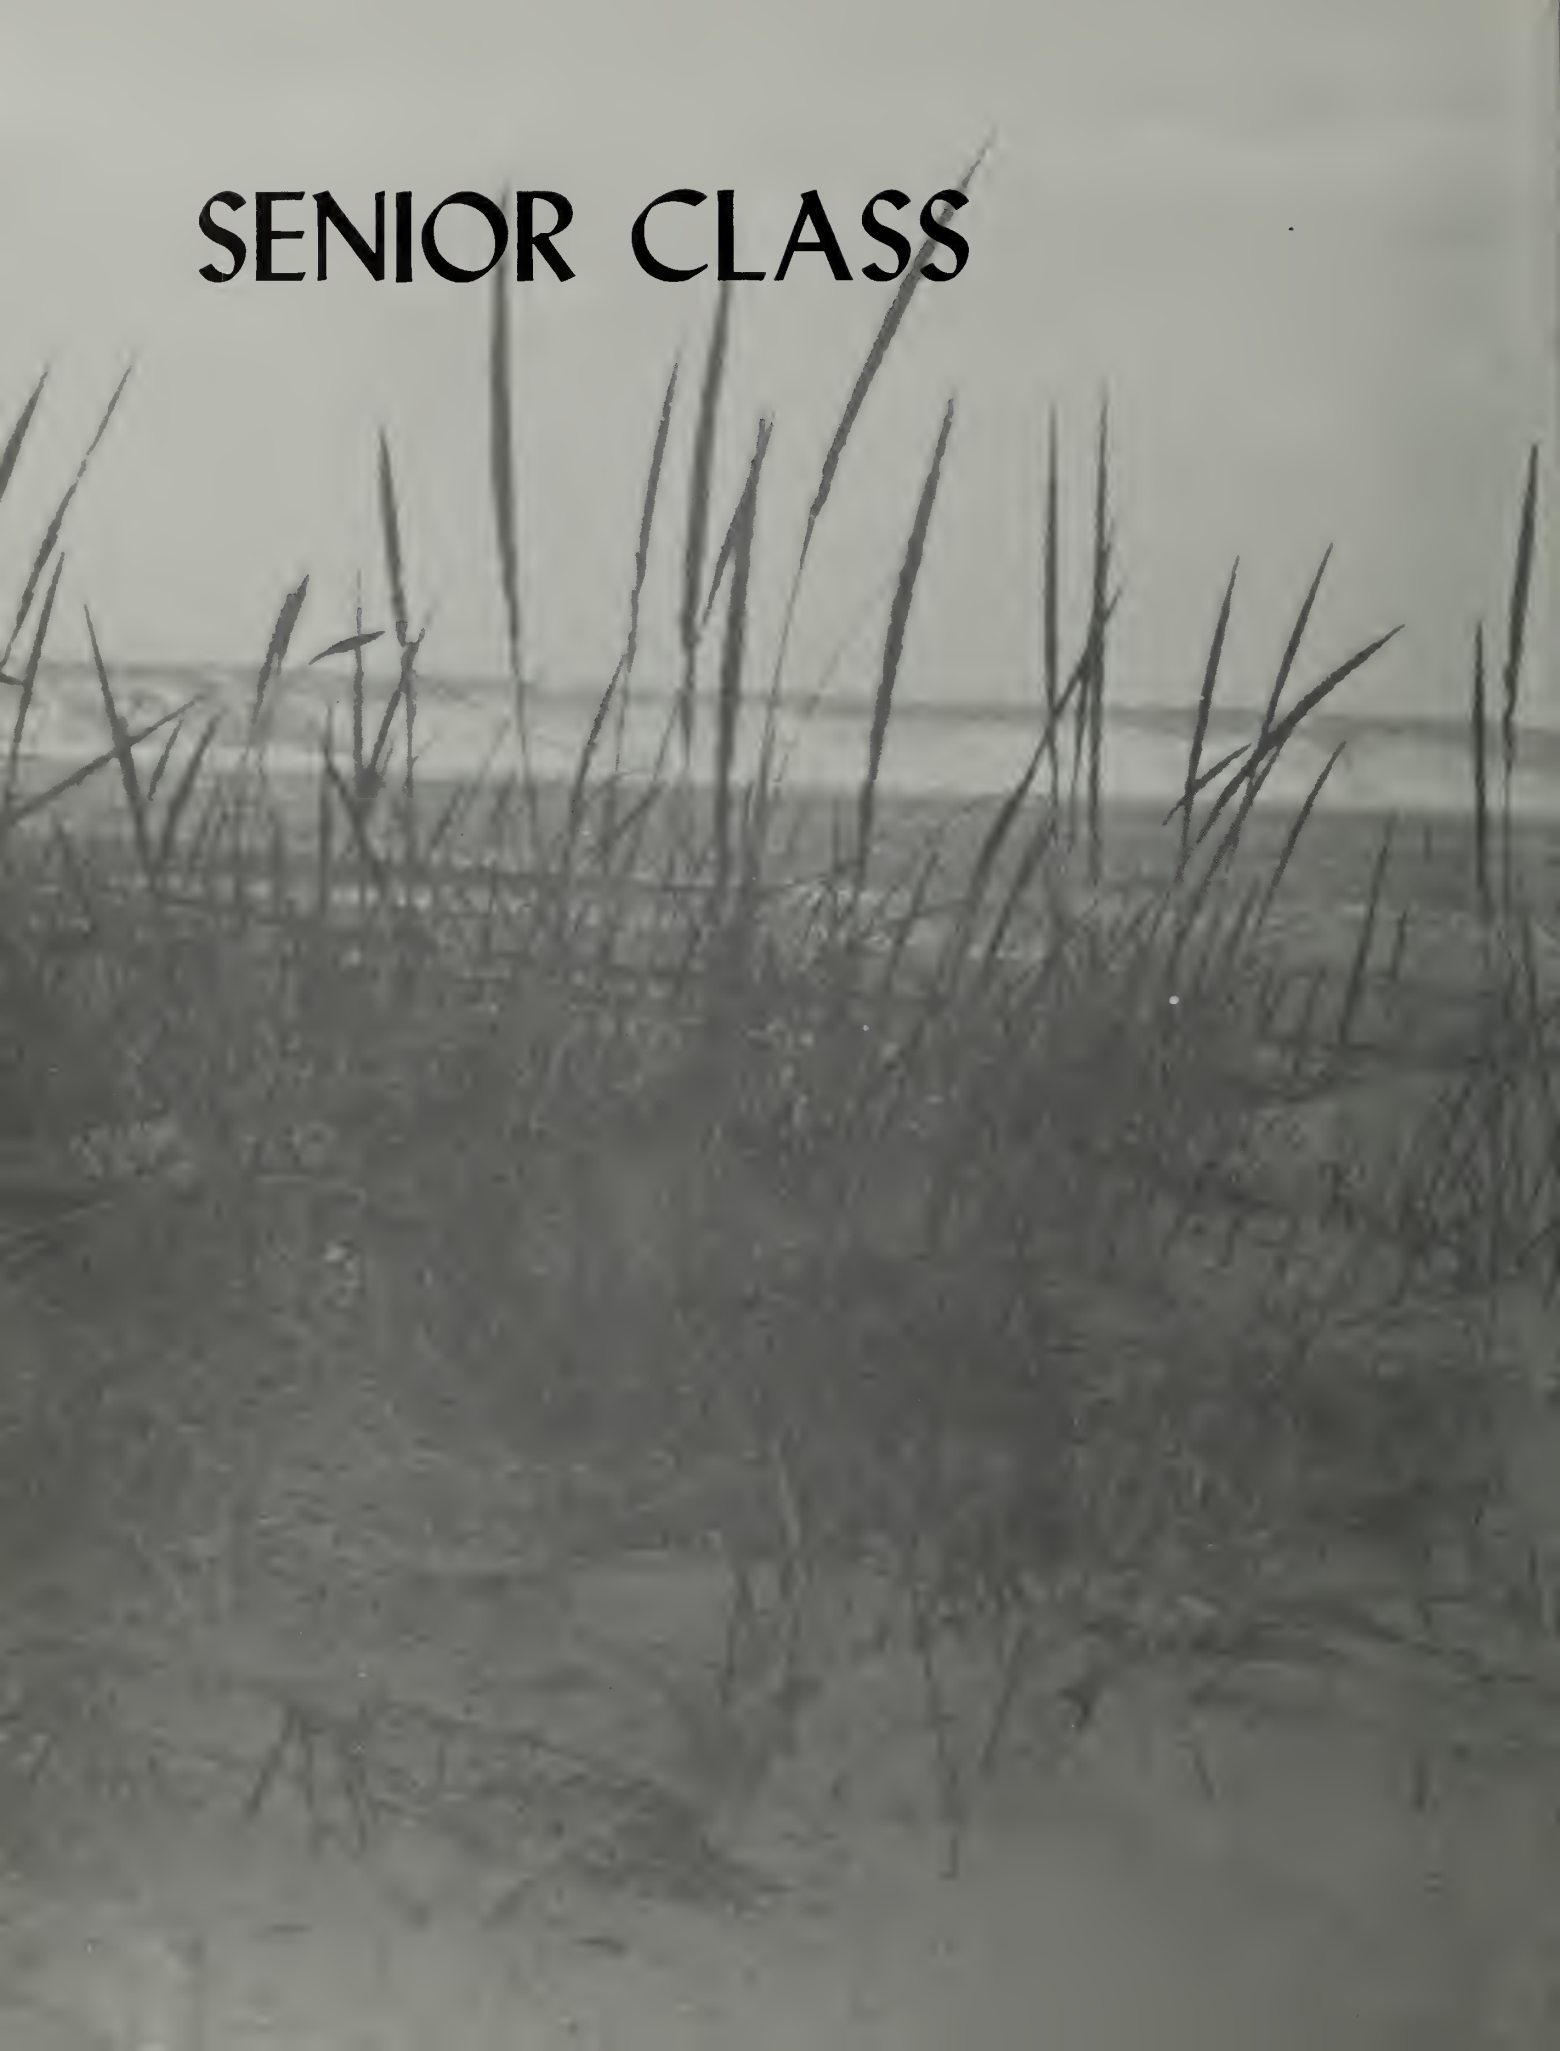
DEDICATION

We the class of 1981, wish to dedicate the 1981 Muster to two fine men, Mr. Leonard Harhon and Mr. Desmond Connolly. Their extraordinary effort and dedication to their profession have made our time at the Academy immeasurably profitable. Their unselfish contributions will stay with us and this Academy for many years to come.

To these two outstanding men we "THANK YOU" and we wish them both fair winds and following seas.

The Class of 1981

SENIOR CLASS



OPPORTUNITY

from "Julius Caesar"

There is a tide in the affairs of men
Which, taken at the floor, leads on to fortune;
Omitted, all the voyage of their life
Is bound in shallows, and in miseries.
On such a full sea are we now afloat;
And we must take the current when it serves,
Or Lose our ventures.

Shakespeare

Richard E. Abbott, Jr.
RD#5 Box 385 Oswego, New York
Varsity wrestling, Intramural; shooting, bowling, gymnastics, ballet, football, hockey, basketball. SOMF Committee 1, 2, 3, 4,

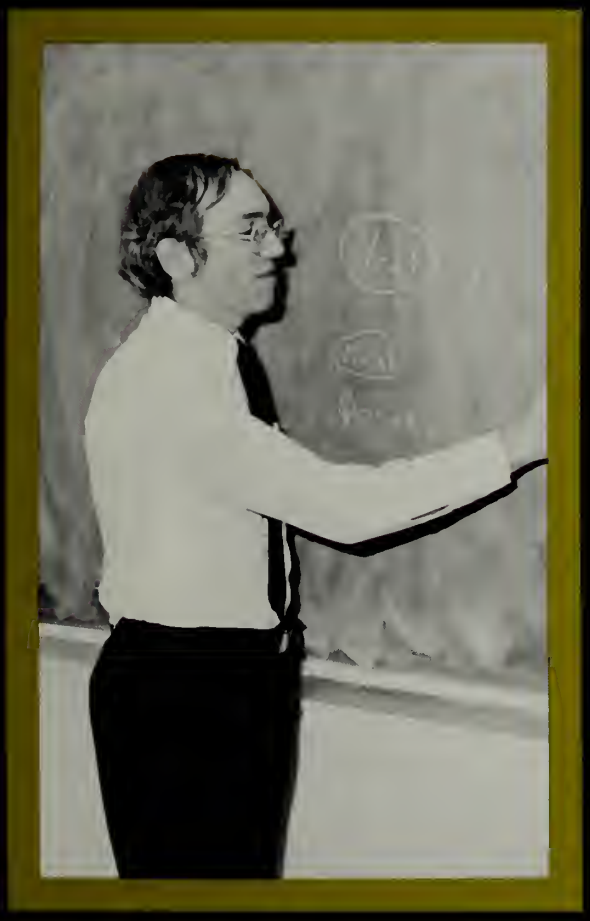
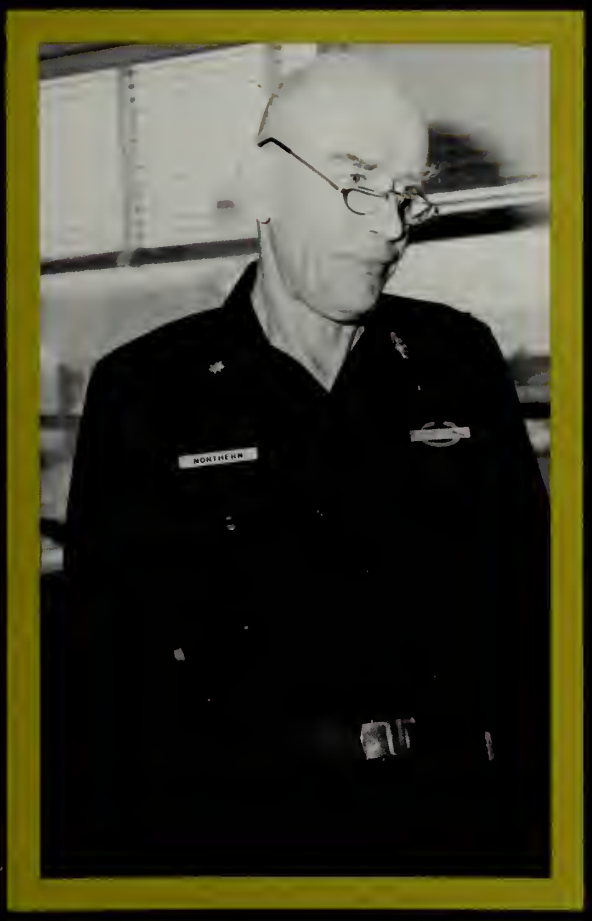
FACULTY

AND ADMINISTRATION





REAR ADMIRAL JOHN F. AYLMER, PRESIDENT

The Commonwealth of Massachusetts

Massachusetts Maritime Academy

P.O. BOX D, BUZZARDS BAY, MASSACHUSETTS 02532 / DIVISION OF STATE COLLEGES

OFFICE OF THE PRESIDENT

Since at this writing I have held the position of president of the Academy for less than two weeks, my remarks to you on this occasion cannot do justice to the special relationship that you enjoyed with my predecessor, Rear Admiral Lee Harrington, during your four years of shared experiences at this fine school. It is my fond hope, though, to get to know many of you personsonally in the next four months that remain before you graduate by immersing myself in the myriad plans and activities that go into preparing you for your professional and personal futures.

As the first alumnus of the Academy to be honored as its president, my pledge to you is to carry on and strengthen your school's long and distinguished maritime heritage and direction.

My primary objective is to achieve a balanced blend of academic education and technical training within the framework of developing each cadet to his or her fullest potential in professional leadership and individual responsibility. You may be pleased to know that I intend to focus increased attention on the maritime aspects of the Academy program by involving each cadet more directly and more frequently in the operation and upkeep of our training ship. I trust that we have put an end to the training cruise adversities and frustrations patiently endured by your class. While retaining what has proved to be worthwhile for the past, we will at the same time accelerate our efforts to incorporate the latest innovations in maritime technology into our facilities and curriculum.

It is our mutual good fortune to have had the opportunity to attend this special school and to partake of all that it has to offer. The Academy celebrates its ninetieth anniversary this year. I come back to my alma mater nearly a quarter century after my graduation just a few months before you go forth as new graduates to find your seperate ways in life and on the sea. I am confident that your education here will serve you well in the years ahead and that the perspective of time will cause you to regard your school with increasing affection and esteem. I encourage you to come back and visit us often after graduation and to be active in your alumni organization.

The Scuba Club serves many purposes at the Academy. They supply diving gear to club members as well as organize charter dives. Underwater services are provided for all the departments at the school. This year was a big year for the club. They took over the teaching of the scuba course offered through the continuing education department and also ran the first annual diving symposium.

YACHT CLUB

The Tide has changed for the Academy Yacht Club. Through the hard work and determination of the Cadets, the Advisor, and the Administration, the Academy has had its most successful sailing year to date.

The Yacht Club had many offshore excursions, including various trips to Newport, Boston, Provincetown, and sails into Buzzards Bay.

The Orientation for the first time had a credible year and sailing program. The land that was recently acquired on Herring Pond, provided the access to the pond where all the candidates were given instruction in sailing on the Academys' thirteen foot sloops by members of the Yacht Club.

A good time was had by all. A job well done is a understatement for the members of the M.M.A.Y.C.

John Gronbeck Commodore
Commander Wales Advisor

The highlight of activity was centered around the recently acquired Ketch "Windlass", in which a majority of the Yacht Club members participated in her restoration. This work enabled cadets to participate in OP Sail 80, the celebration of Boston's 350 Anniversary.

The "Windlass", that was sailed and was crewed by cadets entered the following events: The Parade of Sail, A Predicted Log Contest around Boston Harbor, and it was a spectator craft to watch the armada of sailing craft pass by the starting line of the Translantic Race.

The following quote by John Masefield sums it up,: "To go down to the seas again, to the lonely sea and the sky, and all I ask is a tall ship and a star to steer her by".

PISTOL AND RIFLE

Right to left, top row: 1/c William E. Handy, Team Qartermaster; Chris Bendeslev, Advisor; Lt. Robert Hillary, Advisor; LCDR John Gibbons, Chief Advisor; 1/c Peter Dion, Rifle Club Vice-President. Bottom row: 2/c Eric Carcane, Rifle Club Secretary; 1/c Brian Heap, Rifle Club President; 2/c Timothey Leavitt, Rifle Club Treasurer; 4/c David Keenan, Rifle Team 1980-1981

Both clubs made a strong return from the inactivity of the 1979-1980 season. Both clubs concluded a successful 80/81 season in the South Shore Rifle League, and the Cape Cod Pistol League, respectively. Both clubs provide instruction in firearms safety and marksmanship at semi-weekly practice sessions. The leadership training, coupled with the social contacts, both at the range and at the scheduled matches away from the Academy, make both these clubs a unique facet of the Mass. Maritime Academy.

FOOTBALL

On Saturday, September 6th, the BAY STATE departed from Buzzards Bay on the first leg of the annual training cruise. As the BAY STATE headed for the east end of the canal, so did the forty members of the Varsity Football team. The nucleus of a team which was to be in contention for the New England Football Conference Championship. Left behind to determine the fortunes of the 1980 season were thirty 4th classmen and eight 1st classmen, who had shipped commercially. Four of the eight 1st classmen were John Bandini, Mike Quinn, George Schaab, and Bob Long, all captains elect.

It was this unprecedented situation in college football that captured the attention and the hearts of football fans nationwide. The pinnacle of publicity which the Buc's received came when Irv Cross of the NFL Today Program (CBS) arrived on campus to do a feature story on M.M.A. and the trials and tribulations of its football program. The Buc's responded to the CBS visit with an upset win over Nichols College 27 to 26, and by winning five of its first six games.

The much awaited return of the BAY STATE occurred on October 20th. At this time it became obvious that not only had the program survived, but that another winning season had been assured. Since football was reinstated in 1973 under the late Rear Admiral Lee Harrington, the Bucs have achieved six winning seasons out of eight and five consecutive winning seasons.

In essence, Buc gridders survived a challenge that perhaps no other program had ever experienced in the history of football! The success of the season can be attributed to every member of the squad; however, special recognition must go to the 1st class and to this year's captains for leading the way. The present first class can look back with fond memories on a 25 and 11 record, including being an important part of a conference championship team in 1977.

BUCS NEVER GIVE UP

SOCCER "80"

Because of a delayed cruise which cut well into the soccer season, this years soccer team was comprised predominently of freshman, with a backbone of 4 remaining semiors; capt. Rick Hurd, Bill Crockan, John MacDonald, and Arty Adler. Although this years Bucs started with a young and limited squad, they managed to take it to the oppisition in a high-spirited manner reflecting the pride of the entire soccer program here at the Academy. The squad kept all of the top teams on the schedule to a respectable 1 or 2 point difference, which surprised many of the opposition. Against Caost Guard Academy, MAAs rival, the Bucs determination and grit brought them home with an uplifting tie. This typifies this teams "never give up" attitude which the team displayed on the field all season.

Although coach Cmdr. Hendy could not be on the field much of the season due to his presidential duties, the team was carried by a fine job of coaching from Cdr. Beninghof.

With the return of the training ship also was the return of the remaining 4 seniors Stas Bassich, Bill Hendy, Dave Lahie, and John Palm, along with the underclassmen who joined in to make the team complete for the last 5 games.

Special thanks are given to the seniors who gave up their time to come back early and keep the team alive, and to the freshman, for whom there would not have been a season. The momentum we leave this team with should carry the Bucs on to many winning seasons. GOOD LUCK

BASKETBALL "80"-"81"

M.S.C.C. CO-CHAMPS, DIV. II ECAC CHAMPS

The 1980-81 Buc Basketball squad was once again the author of numerous "firsts" in MMA hoop history. For the third year in a row, Coach Skip Thompson's squad improved upon the previous season's record. Led by all-everything Sr. guard Mark Dumais and power foward Ed Slein, the Bucs emerged as co-champions of the Mass. State College Conference.

Dumais ended his brilliant career on Taylor's Point with 2,223 points, the number 15 that Mark wore will be officially retired by the Academy.

Following an impressive 18-7 overall record, the Buc's were invited to the ECAC Division III tourney in Hartford, CT. The Buc's downed third seeded Amherst College, and went on to play Trinity in the final. MMA, lead by one of the most outstanding freshman in the nation, emerged as the 1981 ECAC Division III Champions by virtue of a 68-66 decision. Rychlec was unstoppable as he dominated the middle and scored 30 points. This win gave the Buc's a 20-7 overall record and firmly established them as a New England power.

WRESTLING "80-81" DIV III NEW ENGLAND CHAMPIONS

The 1980-81 wrestling team appropriately capped off a long season by accomplishing something no other team at MMA has ever done. The Buc's took first place at the Division III New England Wrestling Championships held at Wesleyan Un.. This was a very rewarding victory after a season which, plaqued with injuries, got off to a very slow start.

Comeing back from the Christmas break the Buc's headed down to New Jersey for the Viking Invit. Tourn. held at Upsala Un.. The Buc's came home victorious. They had captured the #1 spot in an area renowned for it's top quality wrestling. In Febuary the team went down to the Division III New England Wrestling Championships as underdogs. They were picked to place third in a 25 team roster. Eight out of ten Buc wrestlers placed in the top six. Taking first in their weight classes were Bill Hofer (190) and Co-Captian shawn Byrnes (167). Finishing second was Co- Captian Rich Deveaney (126). Finishing fourth were Gary Bennett (134), Steve Mclarney (142), Chis Losordo (150), and Scott Bateman (158). Rich Felicetta rounded out the scoring, finishing sixth at 177. To add to all this Coach Dennis Madigan was named New England Division III Coach of the year.

Kneeling L to R; Tom McElhinney, Gary Bennett, Chris Losordo, Frank Freeman, Steve Mclarney, Tim Demello, standing, Scott Bateman, Billy Hofer, George Chiklas, Phil Giles, Shawn Byrnes, Rich Felicetta, Rich Deveaney.

SWIMMING 80-81

BUC SWIMMERS STUN BRIDGEWATER ST.

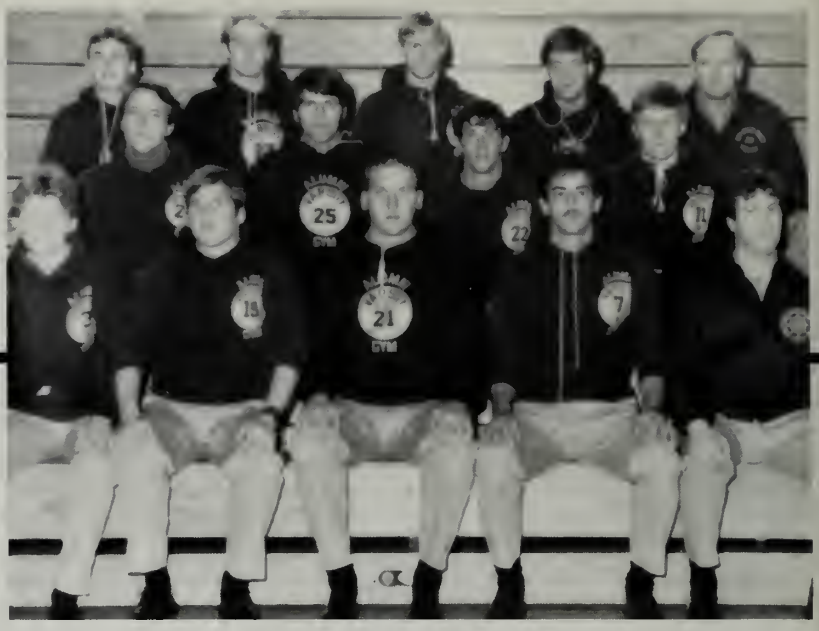
Sparked by a talented field from freshman to senior, the MMA swim club was victorious in it's only dual meet of the season. The Buc's upset Bridgewater State's varsity team by a score of 61-38, and thus regaining the Lee Cup. Tri-Captian Ned Handy spearheaded a strong senior group which included Joe Riva, Mary Sullivan, Jamie McDonald and Paul Braman. Tri-Captians Giles Taylor and John Wilt assure an even stronger team next year.

Standing L to R, Diane Horan, Ned Handy, Paul Braman, Giles Taylor, Bob Gallegher, kneeling Coach Mark Soloman, Mary Sullivan, Julie Berger, John Wilt, Dick Neary, missing from picture were, Jamie McDonald, Joe Riva, Tim Salvo, Doug Atkinson, Paul Berger.

SAILING "81"

The Sailing Team is active all year long. The two racing seasons, fall and spring, provide the team with over 40 meets a year. Our sailors compete in both intercollegiatge and open regattas, from Maryland to Maine. Practices are held at Herring Pond using MMA's fleet of ten O'Day 12's. With the advent of the new boathouse facility at the pond, the team is hoping for a newer fleet of more competitive two-man dighies. Six Lasers and technically superior one-man dighies, privately owned by team members provide excellent training in boat speed and racing tactics. These Lasers have been campaigned heavily over the past year all along the New England seaboard. The individual efforts by a number of the team members in their independently maintained Lasers have produced gold-winning results for MMA.

During the off season, some team members keep in shape with iceboating. The addition of an active new coach and a host of talented underclassmen has notably boosted the team's performance.



Front row L to R; Amy Murphy, Billy Sullivan, Joe Bachoroski, Mike Romanelli, Bill Morrison, second row, Chuck Tutle, Mike McGurl, Ben Bryant, John Caunter, third row, Steve Morrissey, John Wilt, Bob McCabe, Tom Collins, Coach Bob Martell.

The Mass. Maritime Baseball Team finished their 9th season under Head Coach "Bo" Corradi with a 22-15 record. The 22 wins make if four consecutive seasons in which the Bucs have won 20 games or more. For the second year in a row the Bucs won the Coast Guard Tourn. by beating N.Y. Maritime and Norwich UN . . After this fine start the Bucs had their ups and downs but the biggest and best win was a sweep over North Adams State. The victory marked the third time in 18 attempts that the Bucs have beaten North Adams.

There were many individual accomplishments this year, Tim Quinn and Mark Boretti were selected for All New England, Jim Cabuico and Rick Cox made All Conference.

BUC LACROSSE

After two disappointing seasons, Maritime Lacrosse returned to its winning tradition with an impressive 9-5 record. The season was highlighted by an overwhelming triumph over arch-rival New York Maritime. Led by Co-captains Steve Allen and Steve Barraclough, the determined "81" Buccaneer squad overcame numerous injuries and established themselves as one of the stronger Division III teams in New England.

Outstanding performances by freshmen John McEntee, Chris Canniff, and Steve King; sophomore goalie Steve Shannon; juniors Rich Felliceta Giles Taylor, and Regis Burkhardt; seniors Allen and Barraclough; and the moondogs helped make the Bucs season an exciting and successful one. With the return of junior sensation Tom Grell, who missed half of the season due to a hip injury, the departure of only two seniors and a solid group of incoming freshmen, Maritime Lacrosse will enjoy many promising seasons in the near future.

First row L to R, Luke Caron, Steve King, Steve Barraclough, Steve Allen, Giles Taylor, John McEntee, second row, Kevin Theriault, John O'connell, Gary Conway, Howard French, Mark Smith, Tim Demello, Head Coach Harry Evans, third row, John Cook, Jim Watts, Doug Smith, John Blaze, Tom Crell, Steve Shannon, Mark Sullivan, fourth row, Chris Caniff, Bobby Lee, Regis Burkhardt, Tom Scordato, Rich Felicetta.

LIFE AT SEA

CRUISE '78

The "1978" cruise to Mediterranean departed on 17 June after many serious boiler problems. The moral of the cadets was very low at the onset but this cruise would eventually turn out for the best because of the great selection of ports of call.

There were many interesting sights seen en route to the first port of call Barcelona, Spain. Among the fantastic were the Cape of Sargass in Portugal, the majestic "Mountain Of Apes", and the "Rock of Gibraltar".

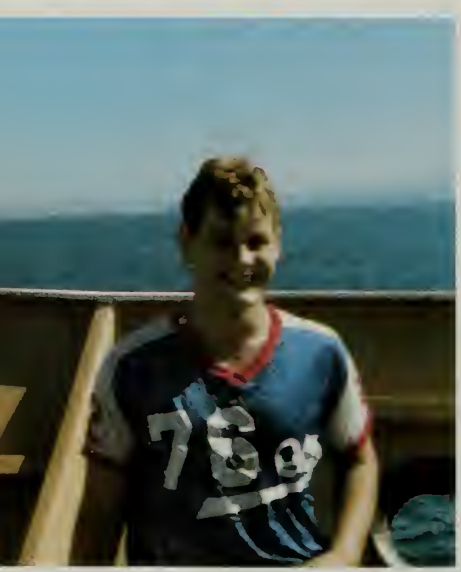
Barcelona proved to be one of the best ports. Nestled on the southern coast of Spain, Barcelona was rich in culture and excitement. Many visited the "Skyway" and the historical fort for spectacular views of the city. The nightlife was equally exciting with most of the action going on around the "Las Ramblas".

Naples, Italy, the next port of call was considered at best sub-par but most took advantage of its proximity to other sights nearby. Among these nearby places were Rome with its rich cultural and historic background, Mt. Vesivius, and the peaceful island of Capri.

Then on to Pireaus, Greece which is a stone's throw away from Athens, Greece. Most sight-seeing, how ever, was confined to the latter hours of the day because of the 100°F plus temperatures. Many will remember the infamous "wine Festival".

The last foreign port of call, Majorca, was considered by many to be the best. This Spanish resort island off of the southern coast of Spain provided some of the best beaches and sight-seeing available throughout the Mediterranean. Many cadets rented mopeds as an efficient and fun mode of transportation to absorb most of the island as possible.

After the long string of ports, the "Bay State" journeyed for fourteen days back to its home port of Buzzards Bay, Massachusetts.



76

STA

BOAT STATION No. 1

CRUISE '79

Cruise "79" departed late because the "Bay State" had been condemned so the school had to suffer the indignity of borrowing New York Maritime's "Empire State". Still, most were eager to get on with the cruise even with the addition of other surmounting problems.

Upon arrival at the first port, Quebec Canada, after many tedious days in the fog, the cadets were warmly received by the local Quebecois. Hundreds of locals swarmed to the ship for a tour. Cadets going ashore found a favorable exchange rate, many fine restaurants shops and much entertainment.

After departing Quebec, it was on to St. George, Bermuda. Upon arriving in Bermuda the "Empire State was greeted with beautiful skies and warm weather. Most enjoyed Bermuda to the max. Sunbathing, boating, scuba diving, shopping and sight - seeing were among the many activities.

Next stops Newport, Rhode Island and Boston, Massachusetts took up the remaining liberty ports. Most cadets took advantage of the time to go home, unpack, and unwind from the shipboard pressures.

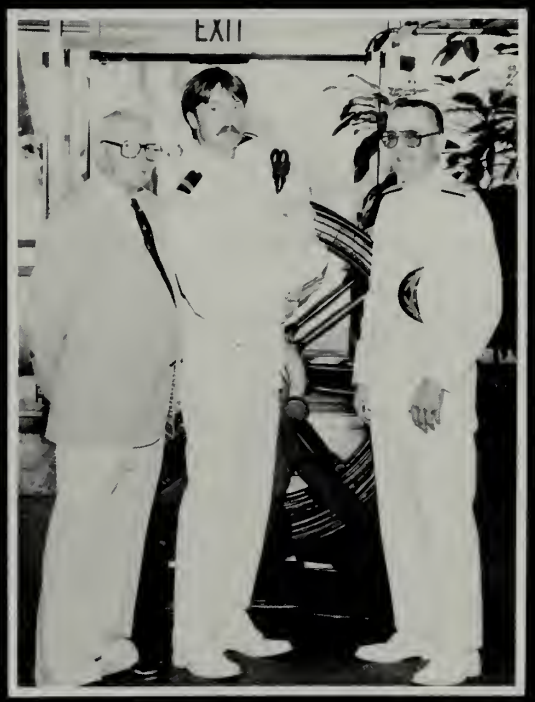
Presented by Mr. William C. Kelley, Jr., MMA, '54, to:
EDWARD FERRIS, JR., Engineer



THE SPECIAL COVER OF THIS 1981 EDITION OF THE MUSTER WAS MADE POSSIBLE THROUGH A GIFT FROM THE ELECTRIC BOAT DIVISION OF GENERAL DYNAMICS

We Deliver.

It takes boats like True Grit to supply operations in the North Sea, and Jackson Marine has them. True Grit and the other supply boats in the JacMac fleet make us the company for offshore supply.

Operators in the North Sea and all over the world know they can depend on Jackson Marine to deliver—on time. Well-trained crews, reliable equipment, and years of experience have built this reputation.

You need your supplies delivered economically and efficiently—without fail. Jackson Marine serves every major offshore area in the Free World, operating out of nine strategically located ports.

Jackson Marine knows what it takes to be your company for offshore supply, and we do it every day, around the world.

Compliments Of

THE USA EXXON FLEET

One of Exxon Company's Ocean Going Tankers — The 165,000 DWT Exxon North Slope Operating In Alaskian Waters.

Only Raytheon gives you

A complete line sold and serviced around the world

On the oceans of the world, we are most noted for our heavy-duty 3 and 10-cm radar systems. More than 50,000 vessels have been fitted. While less visible, other Raytheon products are even more numerous. These include:

- RAYCAS, the finest and most economical Collision Avoidance System yet devised.
- VHF-FM and SSB Radiotelephones.
- Fathometer® Echosounders.
- Doppler Speed Logs.
- SATNAV and Loran-C.
- Facsimile Receivers.

All sold and serviced in major ports everywhere.

MARINERS PATHFINDER® RADAR

DOPPLER LOGS

Doppler logs give accurate speeds and simultaneous bottom soundings. Single or dual-axis.

There are three models of the famous Raytheon Doppler Log:

DSN-250 for continuous fore/aft speeds;

DSN-350 which can be switched to show either fore/aft or port/starboard speeds:

and DSN-450 which shows speeds in both axes simultaneously.

All three are proven performers with these unique features:

- "Normal" mode readings up to 40 knots within 1/10 knot.
- "Mooring" mode readings accurate within 1/100 knot.
- True speeds shown over bottoms as deep as 1000 feet.
- Selectable "water-mass" mode for relative speeds through water.
- Simultaneous bottom soundings to 1000 feet with adjustable minimum depth alarm.
- Automatic water temperature and salinity compensation.
- Self-testing. No calibration.
- Large, easy-to-read LED display with mechanical "distance-run" counter.
- Optional digital and analog "dial" remote displays.
- Single transducer.

Satellite Navigator gives worldwide fixes accurate within 100 yards every 30 to 90 minutes

The "complete navigator", Raytheon JLE-3400 acquires and displays very accurate Lat/Long fixes derived from navy navigation satellites in polar orbit. Between satellite fixes, computer-generated dead-reckoning fixes are shown. Dead-reckoning data is keyboard entered or automatically supplied by a gyro compass and dual-axis doppler log.

Featuring a large 9-inch CRT, the JLE-3400 will also display such important data as:

- Date and GMT.
- Time since last satellite fix.
- Time and angle of next satellite fix.
- Ship's speed and course.
- Data from up to ten way-points including: course-to-steer for Rhumb or Great Circle tracks, distance run, ETA's etc.

A printer for displayed data and a remote CRT display are available as options.

SATELLITE NAVIGATOR

so much in so many places.

Radio facsimile receivers feature push-button station selection and high-contrast 12-inch recording.

Raytheon gives you a choice. The RAYFAX 300 has 8 interchangeable push-button channels with a separate recorder. The RAYFAX 1200 offers 16 interchangeable push-button channels with a built-in recorder that operates unattended with automatic picture start-stop. Both units provide:

- Onboard recording of World Meteorological Organization weather charts, fishery charts, daily news for mariners, etc.
- High-quality 12-inch wide reproduction on odorless, dust-free aluminized paper.
- Long-life recording system with self-adjusting pens.
- Advanced solid-state circuitry.
- Simple operation.

The RAYFAX 300 Recorder is available separately for vessels equipped with a suitable wide-band receiver.

RADIO FACSIMILE RECEIVER

Fathometer® Recorder sounds to 1370 fathoms with 6 overlapping ranges.

FATHOMETER® RECORDER

Designed for large, ocean-going vessels, the R-8220 sounds at 24 kHz with 600 watts of power... provides very precise recordings of underwater topography down to 1370 fathoms. Features include:

- 6 over-lapping ranges of 0-110, 100-210, 200-310, 300-400, 0-720, and 650-1370 fathoms.
- 7-inch calibrated recording paper.
- Fool-proof magnetic keying.
- Electronic fix marker.
- Automatic time-varied gain to eliminate unwanted echoes near surface.

The R-8220 is completely self-contained except for hull-mounted transducer.

Two Loran-C's with U.S.C.G. approved accuracy. One also a chronometer. One with options for steering, Lat/Long, and course/speed readouts.

Just turn a selector of the RAYNAV 8000 to "T". The upper readout becomes a chronometer accurate to 2 seconds a month... the lower readout a push-button stop-watch.

Our RAYNAV 6000 has optional plug-in boards for steering a computed course to a selected destination, and for direct Lat/Long and course/speed readouts.

Both use mini-computers for optimum Loran-C accuracy. Both offer:

- Precise third-cycle matching.
- Initial fixes accurate within 500 yards, repeated fixes within 50 feet.
- Simultaneous tracking of multiple secondaries for verification of primary fixes.
- Turn-on self-testing.
- Continuous monitoring of Loran-C signal quality and strength.
- Manual cycle matching for extended groundwave and nighttime skywave coverage.
- Provision for remote indicators, plotters, etc.

LORAN-C

Fathometer® Digital Sounder goes to 500 feet or 240 fathoms with adjustable depth alarm.

A proven navigational sounder, the DE-740 uses special signal processing to eliminate false bottom readings from schools of fish, thermal gradients, etc.

- Large, easy-to-read LED display.
- 1.5 to 500-foot and 0.2 to 240-fathom ranges.
- 1% sounding accuracy.
- Bottom alarm adjustable in 1-foot or 1-fathom increments down to 299 feet or 240 fathoms.

Designed for console or bulkhead mounting, the DE-740 is supplied with a remote equipment cabinet and a hull-mounted transducer.

FATHOMETER® DIGITAL SOUNDER

Tough "specs" assure dependable operation in the harsh marine environment.

Raytheon products are designed and built to the toughest specifications in the industry. In onboard use and in the laboratory they have proven immune to voltage irregularities, temperature extremes in a corrosive salt vapor atmosphere, excessive shock and vibration. Maintenance, if required, is fast and easy.

Unmatched two-year warranty.

These Raytheon Marine products have a two-year limited parts warranty plus one-year free onboard service within 50 miles of any of our 210 U.S. dealers and worldwide service network in major ports everywhere.

When what you can afford is standard – but what you need is special . . . call Buckley!

Buckley Corporation manufactures complete lines of standard racks, heavy duty shelving and non-powered trucks – or custom designs to your specifications.

Mastorak® boltless pallet racks are available in three series for standard, medium and heavy duty. All feature the exclusive and patented boltless connector that not only provides maximum strength but also simplifies and speeds installation.

GenRad, Inc., Concord, Massachusetts, uses Buckley pallet racks to store electronic components. Side loader stocks racks (top) while order picker (bottom) fills individual requisitions.

Buckley also manufactures complete lines of standard mezzanine and heavy duty shelving, narrow aisle order picking shelving, etc. that help cut your storage costs and make space more productive.

Custom racks and shelving are supplied to meet special storage needs. Such specials range from relatively simple modifications of standard products, to specifically designed and fabricated storage systems.

The Talbots modern warehouse in Hingham, Massachusetts, uses Buckley heavy-duty shelving exclusively to inventory prestige clothing for men and women.

Custom containers and non-powered trucks are built from standard components to meet your specific need. Container types include stacking baskets, and a variety of enclosed units. Truck types available include gray goods, tow line, bobbin, and enclosed transfer.

These tote box carts are specially designed for use with printed circuit boards. The cart is easily modified to allow efficient use with a wide variety of components or products.

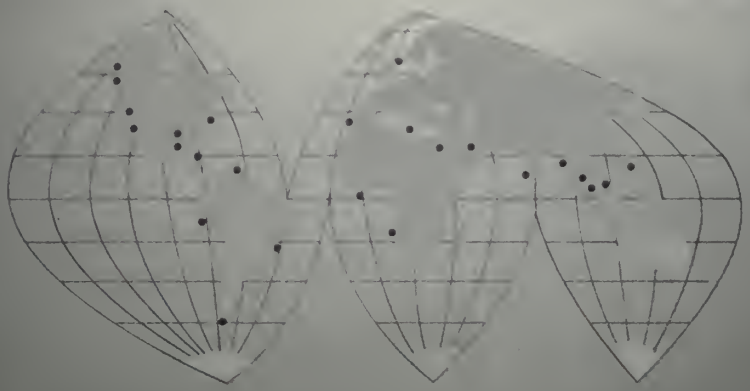
Sailing the four winds and the seven seas.



The only company that serves the oil & gas industry with responsive, dependable air and sea transportation . . . world-wide

Offshore Logistics, Inc.

Sea-Land is breaking up the Bill-of-Lading Bottleneck.

We're doing our best to get your bills of lading back to you in 24 hours. Or less.

At Sea-Land®, we know how waiting to get a bill of lading back from a shipping line can jam you up. So we're not about to keep you waiting.

Our systems for processing bills of lading are as streamlined as any in the industry.

And our Sea-Land people are doing everything they can to push your bills of lading through fast. So fast that we can usually have them back to you in just 24 hours after your cargo is aboard our ship. Or even less.

Because we figure the better we do *our* job, the better you'll be able to do yours.

Stop waiting around for bills of lading that take too long to come back. Start calling Sea-Land.

Sea-Land

What we did for shipping we're doing for service.
